

CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES
OF WILD FAUNA AND FLORA

Thirteenth meeting of the Conference of the Parties
Bangkok (Thailand), 2-14 October 2004

Interpretation and implementation of the Convention

Regular and special reports

Appendix-I species subject to export quotas

BLACK RHINOCEROS: EXPORT QUOTA FOR NAMIBIA AND SOUTH AFRICA

1. This document has been submitted by Namibia and South Africa.
2. It is recommended that the Conference of the Parties adopt the draft resolution in the Annex.

DRAFT RESOLUTION OF THE CONFERENCE OF PARTIES

Establishment of export quotas for black rhinoceros hunting trophies

RECALLING that the black rhinoceros *Diceros bicornis* was included in Appendix I in 1977;

RECOGNIZING that the black rhinoceros is threatened in parts of its range by illegal hunting, fragmentation and loss of its habitat;

RECOGNIZING also that the species is recovering and effectively managed in other parts of its range;

RECALLING that, in accordance with Resolution Conf. 9.14 (Rev.) adopted at the ninth meeting of the Conference of the Parties (Fort Lauderdale, 1994) and amended at the 11th meeting of the Conference of the Parties (Gigiri, 2000), range States of rhinoceros species should develop and implement conservation and management plans for the species concerned, utilizing all available expertise and resources;

RECOGNIZING that effective conservation, management and monitoring plans and programmes are in place in a number of range States of the black rhinoceros and that some populations are recovering and can sustain limited off-takes through trophy hunting;

RECOGNIZING also that the financial benefits derived from trophy hunting of a limited number of specimens will benefit the conservation of the species directly and provide additional incentives for conservation and habitat protection, when such hunting is done within the framework of national conservation and management plans and programmes;

RECOGNIZING that some range States have made significant advances in the conservation and management of this species and the restoration of their national populations, but require additional incentives and means to finance such conservation and management;

RECALLING that countries of export may authorize trade in hunting trophies in accordance with Resolution Conf. 2.11 (Rev.), adopted at the second meeting of the Conference of the Parties (San José, 1979) and amended at the ninth meeting, and may grant export permits in accordance with Article III, paragraph 2, of the Convention;

RECALLING also that Article III, paragraph 3 (c), of the Convention provides that an import permit shall be granted only when a Management Authority of the State of import is satisfied that the specimen is not to be used for primarily commercial purposes, and that Article III, paragraph 2 (a), provides that an export permit shall be granted only when a Scientific Authority of the State of export has advised that the export will not be detrimental to the survival of the species;

RECALLING furthermore that with the adoption of Resolution Conf. 9.21 at the ninth meeting of the Conference of the Parties, the Conference of the Parties agreed that the establishment of an export quota by the Conference of the Parties for a species included in Appendix I satisfies the requirements of Article III, paragraphs 2 (a) and 3 (a), of the Convention that the export and the purpose of the import will not be detrimental to the survival of the species provided that the quota is not exceeded and that no new scientific or management data have emerged to indicate that the species population in the range State concerned can no longer sustain the agreed quota;

THE CONFERENCE OF THE PARTIES TO THE CONVENTION

APPROVES the establishment of an annual export quota of 10 hunting trophies of black rhinoceros *Diceros bicornis* from South Africa and five from Namibia;

AGREES that hunting trophies of the black rhinoceros are defined as the horns or any other durable part of the body, mounted or loose; and

RECOMMENDS that:

- a) in reviewing applications for permits to import black rhinoceros hunting trophies, in accordance with Article III, paragraph 3 (a), of the Convention, and Resolution Conf. 9.21, paragraph b), the Scientific Authority of the State of import approves permits if it is satisfied that the trophies being considered are from range States to which an export quota has been granted as part of national black rhinoceros conservation and management plans and programmes and will be traded in accordance with the provisions of the present Resolution;
- b) in reviewing applications for permits to import black rhinoceros hunting trophies, in accordance with Article III, paragraph 3 (c), of the Convention, the Management Authority of the State of import be satisfied that such trophies are not to be used for primarily commercial purposes if:
 - i) the trophies are acquired by the owners in the country of export and are being imported as personal items that will not be sold in the country of import; and
 - ii) each owner imports no more than one trophy in any calendar year; and
- c) amendments to export quotas or the establishment of additional export quotas for this species be done in accordance with Resolution Conf. 9.21.
